Globally, Physical therapy accounts for an estimated \$26.6 billion, or approximately 90%, of all outpatient rehabilitation spending. Consequently over recent years, the GCC region has seen expansion in rehabilitation centers and is viewed as an area of much needed further expansion in the region. The increased need for enhanced technology, advanced facilities and expertise has placed the region as not only at the forefront of growth but also as an urgent need to prosper in the arena of physical rehabilitation.

The 3-day physical rehabilitation congress was the main platform in the Middle East covering latest trends and developments in the field of rehabilitation. The congress covered various fields related to physical medicine including musculo-skeletal medicine, neuro muscular medicine, paediatric rehabilitation, chronic pain rehabilitation and more, through dissemination of latest knowledge by leading local and global experts in the field. The congress is concluded to foster innovation and knowledge in the field of physical rehabilitation.

- Physiotherapists
- Occupational therapists
- Other healthcare professionals

By Country:

- UAE
- KSA
- GCC
- North Africa
- Others

Marketing and Promotional Highlights

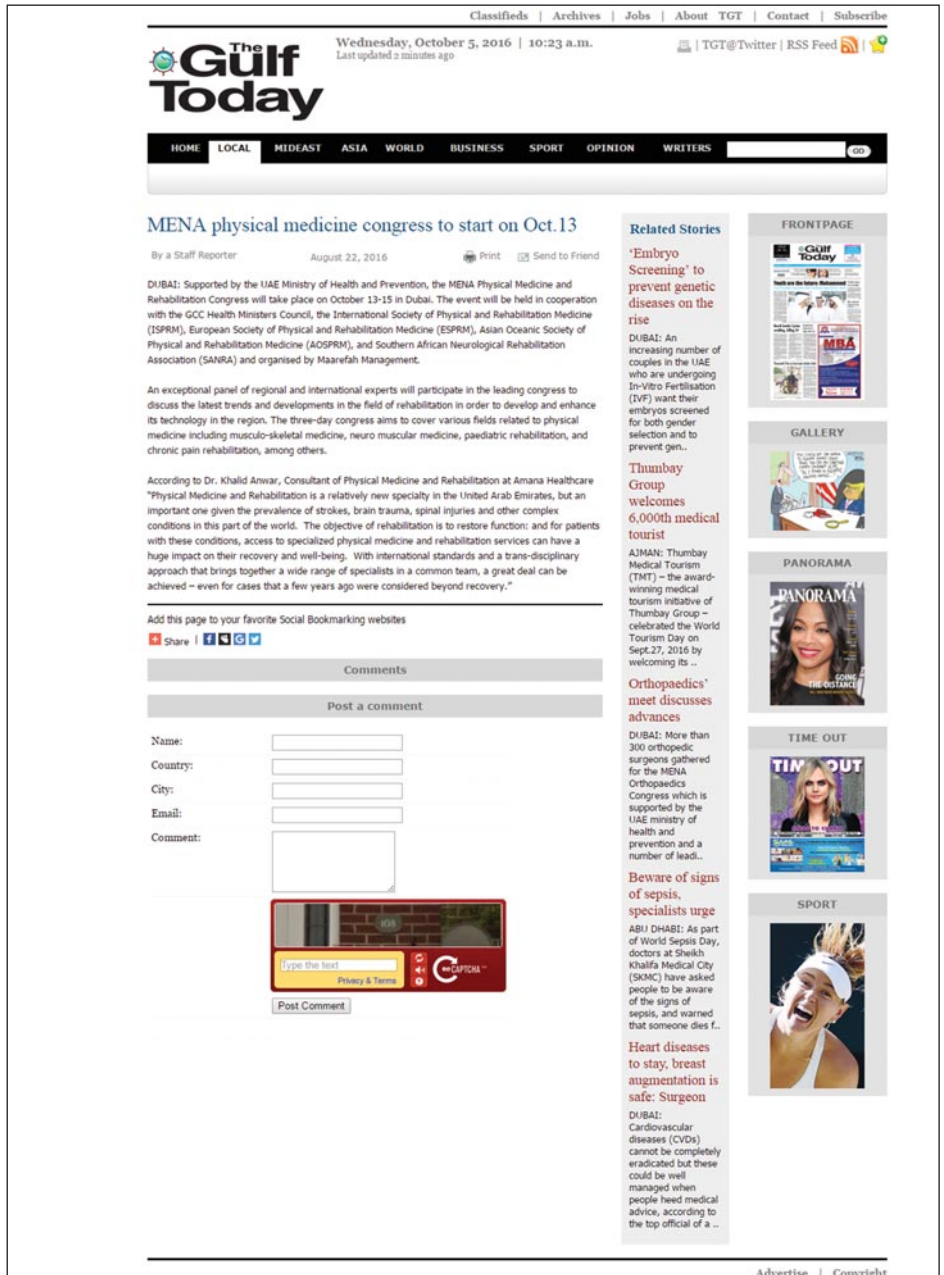

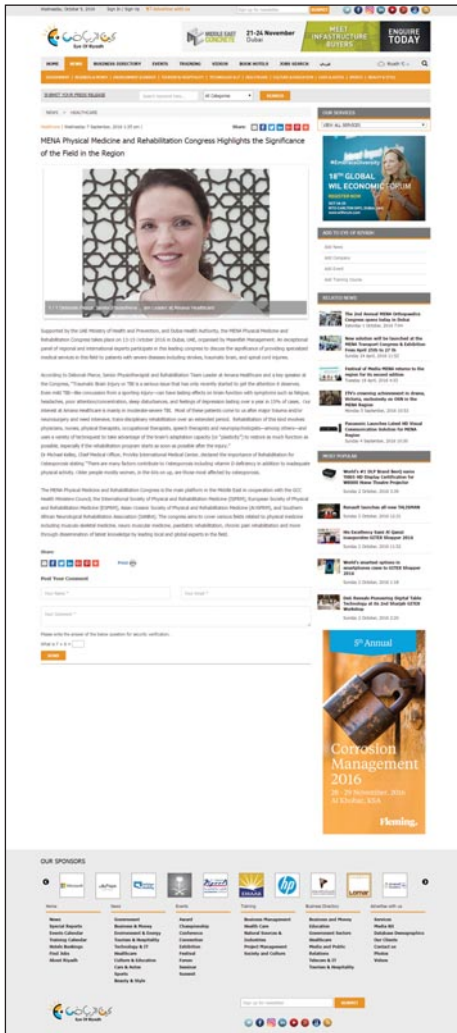

Comprehensive year-round marketing campaign designed to generate awareness, not only for the event but also for our sponsors and supporters. The activities include:

Content email campaigns | Third party campaigns through our media partners | Social Media Marketing (Twitter, Facebook and LinkedIn group) | Editorial | Adverts (print and online) | Direct Marketing | PR | Event listings in more than 100 conference and event websites in the region.

We are constantly growing the audience we engage with in order to ensure that each year, the congress attracts new entrants to the market and attendees continue to be of the highest quality.

Various news coverage about the congress were released by major media channels in the region. Few of them have been highlighted below.

“ I was born and raised in Rome, Italy and I just joined C.S.H. 5 months ago as a specialist orthopaedic surgeon. A few days ago, I took the responsibility as head of department of rehabilitation at C.S.H. Therefore, my interest in this event is to make people in the field to get in touch with our facility and services. For the same reasons, I think this meeting should be a great opportunity for professionals in rehabilitation to meet each other in a pleasant, informal environment as well as share their invaluable experiences. Advertising in main events is part of the core marketing effort – this meeting in particular is of utmost importance in sharing rehabilitation knowledge and meeting company suppliers for further updating our facility services.

Dr. Paolo Cellocco
Specialist Orthopaedic Surgeon
Canadian Specialist Hospital, UAE

“ We would like to commend the professionalism and devotion of Maarefah Management's team prior and during the congress. As a speciality product supplier, we made use of the focused target groups attending the scientific lectures.

Simply stated, the marketing efforts of 1 month were made effective in 2 days, through focused exposure and relationship building. We look forward to cooperating with Maarefah for mutual potential growth and the ultimate benefit of the region's healthcare sector.

105年10月13-15日MENA Physical Medicine & Rehabilitation Congress 開場中

CALL FOR ABSTRACTS NOW OPEN

The MENA Physical Medicine & Rehabilitation Congress, taking place on 13-15 October 2016 in Dubai, UAE, brings together regional leaders and medical experts in the field of physical rehabilitation to discuss the most pressing rehabilitation conditions in the region. The congress aims to cover various fields related to physical medicine including musculo-skeletal medicine, neuro muscular medicine, paediatric rehabilitation, chronic pain rehabilitation and more through the dissemination of latest knowledge by leading local and global experts in the field.

Join our expert speakers from Amman Healthcare, Provita, Saudi German Hospital, Cambridge Medical & Rehabilitation Center, Canadian Specialist Hospital, Al Noor Hospitals Group, Zayed Military Hospital, King Fahad Medical City, American Center for Psychiatry and Neurology, and more. Do not miss out on the opportunity to foster innovation and knowledge in the field of physical rehabilitation.

The Scientific Committee of the Congress invites you to submit your abstract to the congress to be chosen for oral or poster presentation for the key highlighted areas:

- Early stroke rehabilitation
- Musculoskeletal rehabilitation
- Pain management and rehabilitation
- Brain injury rehabilitation
- Spinal cord injuries
- Other areas related to physical medicine and rehabilitation

This is the opportunity for Rehabilitation Experts and Leaders to be part of one of the most important congresses in the Middle East by presenting a paper to participate. Please fill the abstract form and email to info@menaphysicalrehab.com.

We look forward to receiving your abstracts.

Exclusive 15% discount to AOSPRM members on registration. Please use this code AOSPRM-16 to avail the discount.

“The conference topics are good because it includes speaking about the current rehabilitation updates in UAE and what are the difficulties that the doctors are facing and what the ideal rehabilitation in developed countries is and how to fill the gap. There are a lot of topics which give the clinical and rehabilitation charts for their patients and these are the most common topics in UAE which the doctors face. The organisation and scientific program is carefully fit.

Dr. Magdi Iskander
Consultant, Physical Medicine & Rehabilitation

“We were the ‘scooter company’ at the MENA PMR Congress and would like to thank everyone who showed interest in what our company has to offer and seeing the potential in adding value to the community whilst being in alignment with the vision that the UAE is moving towards, emphasizing on mobility and providing appropriate accessibility to a growing user base of personal mobility devices that empowers individual’s independence. Throughout the event, we were able to gain insights and have a better understanding of the various types of individuals who would immensely benefit from our offering due to the accessibility of the product as well as being a budget friendly substitute for individuals who would otherwise not need to spend a premium.

Ibrahim Barbour
Sales Engineer

“It was a well-organised, informative seminar. We hope to attend more of your seminars. Thank you for the invitation.

Romalyn Hernandez
Physiotherapist
Ibn Nafees Medical Center, Abu Dhabi, UAE

What our peers say about the congress

The conference topics are good because it includes speaking about the current rehabilitation updates in UAE and what are the difficulties that the doctors are facing and what the ideal rehabilitation in developed countries is and how to fill the gap. There are a lot of topics which give the clinical and rehabilitation charts for their patients and these are the most common topics in UAE which the doctors face. The organisation and scientific program is carefully fit.

Dr. Magdi Iskander
Consultant, Physical Medicine & Rehabilitation
Dr. Magdi Iskander
Physiotherapy Clinic, UAE

We would like to commend the professionalism and devotion of Maarefah Management's team prior and during the congress. As a speciality product supplier, we made use of the focused target groups attending the scientific lectures. Simply stated, the marketing efforts of 1 month were made effective in 2 days, through focused exposure and relationship building. We look forward to cooperating with Maarefah for mutual potential growth and the ultimate benefit of the region's healthcare sector.

Ahmed M. Arafa
Business Development Manager
Kemya Medical Store, UAE

I strongly recommend that all allied health professionals should get involved in developing and promoting utmost care for the patient. In this PMR Congress, I learned so much. Thank you MENA for this awesome congress.

Diana Rose Bautista
Physiotherapist
Specialized Medical Care Hospital Al Ain, UAE

We were the 'scooter company' at the MENA PMR Congress and would like to thank everyone who showed interest in what our company has to offer and seeing the potential in adding value to the community whilst being in alignment with the vision that the UAE is moving towards, emphasizing on mobility and providing appropriate accessibility to a growing user base of personal mobility devices that empowers individual's independence. Throughout the event, we were able to gain insights and have a better understanding of the various types of individuals who would immensely benefit from our offering due to the accessibility of the product as well as being a budget friendly substitute for individuals who would otherwise not need to spend a premium.

Ibrahim Barbour
Sales Engineer
Cruiser Scooter TRDG, UAE

All the topics discussed, were very informative and up-to-date. I was very impressed on how such a conference was organised that well and how the exhibits were very exciting. Overall, this conference is highly recommendable for everyone in the healthcare field.

John Mark Celis
Staff Nurse
Cambridge Medical and Rehabilitation Center

We learned a lot of good topics, hope to attend next year.

Sonia I. Santiago
Physiotherapist
Specialised Medical Care Hospital, Al Ain, UAE

The scientific program was updated. All physiotherapists, instruments were adjusted according to the functional and physical challenges of the patients. Overall, it was informative.

Masoumeh Kazemi
School Director
Iranian Hospital, UAE

It was a well-organised, informative seminar. We hope to attend more of your seminars. Thank you for the invitation.

Romalyn Hernandez
Physiotherapist
Ibn Nafees Medical Center, Abu Dhabi, UAE

What our peers say about the congress

Firstly, thank you for the congress. Secondly, this congress gives us the opportunity to promote and show our service to private and government sector stakeholders. At the same time, it is a chance to give idea about our services to people who are coming from outside. I have met a lot of people today from outside the country. It was also a good chance to meet them and share information about our activities and services and theirs as well. It's important for any company and institute to sponsor such congresses.

Dr. Paolo Cellocco
Specialist Orthopaedic Surgeon
Canadian Specialist Hospital, UAE

I was born and raised in Rome, Italy and just joined C.S.H. 5 months ago as a specialist orthopaedic surgeon. A few days ago, I took the responsibility as head of department of rehabilitation at C.S.H. Therefore, my interest in this event is to make people in the field to get in touch with our facility and services. For the same reasons, I think this meeting should be a great opportunity for professionals in rehabilitation to meet each other in a pleasant, informal environment as well as share their invaluable experiences. Advertising in main events is part of the core marketing effort – this meeting in particular is of utmost importance in sharing rehabilitation knowledge and meeting company suppliers for further updating our facility services.

Dr. Paolo Cellocco
Specialist Orthopaedic Surgeon
Canadian Specialist Hospital, UAE

The MENA congress is a regional conference bringing all multidisciplinary teams from doctors and other allied professional from other areas and countries in the same region. This will increase the awareness of physical medicine and rehabilitation in addition to the recent advances, work and concepts in this field.

Dr. Mohamed Rami Al-Ahmar
Physiatrist, Spinal Injury Senior Specialist
King Hussein Medical City, Jordan

It was my first congress here in Dubai and was a pleasure to attend these two days. All the topics were very interesting and could give me a view on how physical medicine and rehabilitation is in the Middle East. I hope next year we can have some insurance compnies join us to discuss how to work together. Thanks for this new experience.

Tatiana Dias Da Cruz
Physiotherapist
Medicentres Polyclinic

Being a titanium sponsor, give us the opportunity to network and gives us a competitive advantage over other facilities in the same industry. It also gives us the opportunity to meet with stakeholders of the private and government sector in the same industry. It can expose us to potential clients and prospects. It gives us interaction and sharing with top notch speakers where we can share our expertise and challenges. In addition to that we can share and expose our services, activities and facilities.

Dr. Jamil Itani
Medical Director
Provita, UAE

Physical rehabilitation is a speciality where we are dealing with musculoskeletal problems and all the staff who are working in this kind of setting are geared towards improving the patients' functions and quality of life and I think pain is a very important factor in their way which is inhibiting their efforts and if a pain specialist comes in and provides appropriate advice or consultation for these patients it will facilitate their treatment. This platform is very important for introducing this concept to PMR people.

Dr. Hassan Jabbar Shaikh
Consultant Pain Medicine
Dubai Mediclinic City Hospital,
UAE

This specific congress is generally looking at the rehabilitation services in countries within the MENA region. The services are not well-advanced in this region and it's a good chance for participants to look at ways of improvement of the service across the region. At the end, the message is the same which is to get the patient back to the community as soon as possible to live a meaningful and successful life.

Dr. Aheed Osman
Consultant Surgeon in Spinal Injuries
RJ & AH Orthopaedic Hospital,
United Kingdom
